

Eastern Technical High School Traffic Pattern for Morning Arrival

1. Parents picking up students should use the **North Entrance** to the Faculty Parking Lot in front of the school.
2. The **South Entrance** will be one way exiting the school at dismissal.
3. Vehicles needing to turn left onto Northbound Mace Avenue should line up on the left side of the Faculty Lot. Please pull your vehicle up as close as possible to the vehicle in front of you.
4. Vehicles needing to turn right onto Southbound Mace Avenue should line up on the right side of the Faculty Lot. Please pull your vehicle up as close as possible to the vehicle in front of you.
5. Buses will be dismissed from the bus loop prior to any other vehicles being released from the parking lots.
6. After the buses depart, the faculty lot will be released.
7. The SRO will attempt to clear the faculty lot completely before allowing traffic to flow on Mace Avenue.
8. The SRO will then stop traffic again on Mace Avenue to allow the student lot to exit.
9. **IMPORTANT!** Please refrain from turning left into Spencer Terrace from Southbound Mace Avenue during afternoon dismissal. This causes traffic to back up on Southbound Mace Avenue creating a dangerous situation. In addition, please do not turn into Spencer Terrace and then make a U-Turn to go Northbound on Mace Ave. When doing this, students leaving school must then cross Mace Avenue to reach vehicles parked across from the school exposing those students to possible harm. Using the correct pick up procedures is the safest way for your child to leave school.
10. **IMPORTANT!** Please refrain from turning right from Northbound Mace Ave. into Spencer Terrace and then making a U-Turn on Spencer Terrace to pick up students at dismissal. This causes traffic to back up on Northbound Mace Avenue also creating a dangerous situation. Students leaving school must then cross Mace Avenue to reach vehicles parked across from the school exposing those students to possible harm. Using the correct pick up procedures is the safest way for your child to leave school. **Both contribute to the generally congested traffic in front of school and result in students and drivers being exposed to the risk of accidents. As members of the Eastern Tech. community, we ask that you assist us in keeping your child safe by using the correct pick up procedures.**
11. Students needing to cross Mace Avenue should use the designated **crosswalk** located at the South Entrance.
12. Please follow the directions of any staff member who is working the traffic detail. They are there for the safety of our students.
