

Eastern Technical High School

Traffic Pattern for Morning Arrival

1. The **North Entrance** from Mace Avenue to the front of school is closed for morning arrival. Only buses and faculty members may use this entrance for morning arrival.
2. Student drivers and parents dropping off students should use the **South Entrance** only. Do not drop off students prior to being in the **Drop Off Zone** located between the cafeteria and the rear of the school. Dropping off students prior to the **Drop Off Zone** will cause traffic to back up on Mace Avenue.
3. Once students have exited the vehicle, parents wishing to leave school grounds should follow the left lane through the side parking lot to the Mace Avenue exit. Buses should be given the right-of-way when exiting the parking lot. Please yield to any students who are walking from the student parking lot. **Student drivers** should stay to the right through the side parking lot to enter the student parking lot.
4. **IMPORTANT!** Please refrain from turning left into Spencer Terrace from South Bound Mace Avenue during morning arrival. This causes traffic to back up on South Bound Mace Avenue creating a dangerous situation. In addition, please do not turn into Spencer Terrace and then make a U-Turn to go Northbound on Mace Ave. Students dropped off on Spencer Terrace must then cross Mace Avenue exposing those students to possible harm. Using the correct drop off procedures is the safest way for your child to arrive at school.
5. **IMPORTANT!** Please refrain from turning right from Northbound Mace Ave. into Spencer Terrace and then making a U-Turn on Spencer Terrace to drop off students. This causes traffic to back up on Northbound Mace Avenue also creating a dangerous situation. Students dropped off on Spencer Terrace must then cross Mace Avenue exposing those students to possible harm. Using the correct drop off procedures is the safest way for your child to arrive at school. **Both contribute to the generally congested traffic in front of school and result in students and drivers being exposed to the risk of accidents. Again, using the correct drop off procedures is the safest way for your child to arrive at school. As members of the Eastern Tech. school community, we ask that you assist us in keeping your child safe by using the correct drop off procedures.**
6. If it is necessary to drop students off across Mace Avenue from the school, those students should use the designated **crosswalk** at the South Entrance to cross Mace Ave.
7. Please follow the directions of any staff member who is working the traffic detail. They are there for the safety of our students.
